

POLICE HUNT FOR SON OF J. A. ROEBLING

Boy Strangely Disappeared from Asheville, N. C., Where He Was Attending School.

ASHEVILLE, N. C., May 25.—New York detectives have been engaged to hunt for Siegfried Roebling, the four-year-old son of John A. Roebling, of New York, who has been missing from his home here since Saturday.

The son has been a student in the Asheville school, and on Saturday he was in Asheville to visit his parents.

He is now here. His disappearance was sudden.

"I am tired of school and I want to go home," he is said to have said.

The Roeblings' New York home is at 134 Cumberland street, Brooklyn.

The son has been a student in the Asheville school, and on Saturday he was in Asheville to visit his parents.

He is now here. His disappearance was sudden.

ALARM CALLS FOR SUBWAY AND "L"

Board of Aldermen Requested to Provide for Fire, Police and Hospital Assistance at All Stations.

Louis A. Cuvillier, a lawyer, requested Aldermen Reginald S. Doud, in a letter sent to-day, to introduce a resolution before the Board of Aldermen providing for the installation of fire, police and hospital calls at all subway and elevated stations of the Interborough system.

Mr. Cuvillier says that the city has needed such a provision for a long time so that immediate attention may be assured for the maimed and injured in accidents in the subway and on the "L."

The lawyer has drawn up the ordinance with elaborate detail. He says, in presenting his suggestion to Aldermen Doud:

"I believe that you and the majority of citizens of the State of New York will agree with me that this ordinance is one that has been needed in the city for a long time, when we consider the enormous strides rapid transit has taken."

"I believe that some provision should be made for the life and health of the traveling public, although the public officials, with the officials of the Interborough Railroad Company, have thrown around the operation of trains all the safeguards that can be devised, but nevertheless from unforeseen causes accidents are liable to occur."

He also says that the city has needed such a provision for a long time so that immediate attention may be assured for the maimed and injured in accidents in the subway and on the "L."

The lawyer has drawn up the ordinance with elaborate detail. He says, in presenting his suggestion to Aldermen Doud:

MOXIE

No wonder children love Moxie. They will leave their play any time for a glass of this thirst-quenching, delicious beverage. There is nothing in the world better for them.

Moxie is the food their nerves require, and the little ones' nerves need nourishing as much as their bodies do.

The fact that there is no alcohol, narcotics, poisonous drugs or chemical preservatives in Moxie makes it a safe and most desirable drink for every member of the family.

This is the reason that physicians use it in their own homes and recommend it to their patients.

4¢ per case; 25 cents per bottle; 1 cent per glass at all fountains.
